

Summer is coming

It's time to say goodbye
to the old 3-ways fridge!

Easy and immediate replacement
with the new range of
last generation compressors

It's time to switch to the compressor

No more waste, no more compromises: with hot weather on the way, the compressor fridge is the smart choice for your motorhome.

It consumes less, cools more and always works, even in high temperatures.

The latest generation of compressor refrigerators 'made by Vitrifigo' are designed to fit in the same compartments as the old 3ways models

No changes, only advantages.

Now's the time! Get ready for warmth with maximum comfort!

5
good reasons

1
choice

3-WAYS FRIDGE

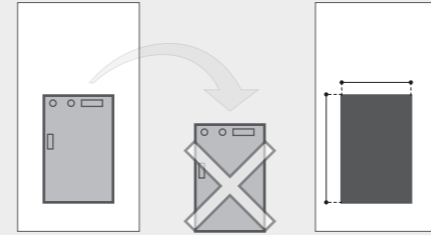

- Poor reliability
- Noisy
- Requires vents and maintenance
- High consumption on both gas and 12Vdc
- Efficiency loss with heat

COMPRESSOR FRIDGE

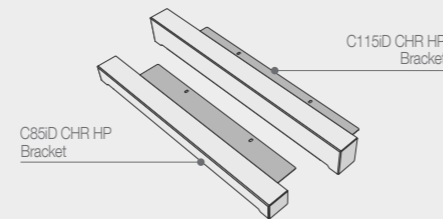

- Maximum reliability and safety
- Silent
- No modification for installation
- Low consumption (30-50W)
- Cools even with 40°C outside

Best thing?
They fit exactly where your old fridge used to be.

1 Remove the old 3-ways fridge and take your built-in dimensions

2 Choose between the C85iD CHR and the C115iD CHR and install it with the specific supplied bracket

Our compressor refrigerators range meets every space and autonomy requirement: from 60 litres compact and functional, up to 130 litres and more, for those who want no compromises.

But you can also choose from versions with a digital or mechanical thermostat, with an internal or remotable refrigeration unit, or even with a reversible door or with a drawer opening, to optimise the storage of food and drinks during your travels.

Browse vitriFrigo.com. Discover the whole range of refrigerators and find a retailer near you.
